PROJECTS

Lost and Hound | Founder & Project Lead February 2026 – Present
Unified Campus Lost-and-Found System (Web + iOS)
- Drove user acquisition and retention to 150+ users for a campus platform serving Northeastern's Student Center with a Capacitor iOS app.
- Pitched and partnered with Student Center senior leadership to unify peer reporting and maximize student engagement.
- Built real-time layer for live feed, direct messaging, moderator dashboards, and Google Maps integration.
- Enhanced engagement using keyword search, category filters, and importance ranking for high-priority items.
- Automated photo screening across all user uploads using Google Cloud Vision.
- Secured API with a requireAuth → require2FA → role-guard middleware chain, RLS, and tiered rate limiting.
- Created moderator console with queues, tickets, live stats, and an infrastructure cost tracker for spend projection.

Backyard | Founding Engineer May 2026 – Present
Campus Club Discovery Platform
- Centralized campus club discovery and event marketing to boost student onboarding and active engagement.
- Designed core authentication system (login, signup, reset, transactional email), club calendar, and search.
- Built a full-stack content moderation system featuring profanity filtering and Cloud Vision SafeSearch image scanning.
- Identified and patched four world-writable Postgres RLS policies exposing emails and administrative endpoints.
- Eliminated direct browser DB access using a JWT-verified Express API and standardized mass-assignment allowlists.
- Spearheaded marketing outreach and onboarding wizard, acquiring 15+ student clubs via hashed invite links.

BBAL Sim | Solo Developer October 2025 – August 2026
Basketball League Simulation Engine
- Rebuilt Python simulator in TypeScript, enabling a 1,230-game season simulation in 10s off main thread.
- Engineered game outcomes using player matchups across 29 skills and 22 tendencies instead of single ratings.
- Integrated 10 personality traits and a 100-writer press corps dynamic to drive realistic award voting.

EXPERIENCE

Oasis at Northeastern — Accelerator Project Lead & Project Mentor · Boston, MA September 2026 – Present
- Lead two Accelerator teams totaling 18–20 developers, directing sprint planning, code review, and task allocation.
- Mentor 3 first-year students through full-stack software development, taking a project from setup to deployment.

Retail & Food Service (Seasonal) — Guerriero Gelato, Caldwell NJ; Tropical Smoothie Cafe, Livingston NJ May 2023 – August 2026
- Promoted to Shift Leader, managing teams of 3–5 staff and serving 150+ customers per shift during peak hours.

United Asian Voices Diwali Festival — Emcee & Founding Organizer · West Orange, NJ October 2022 – October 2025
- Co-founded local festival, growing attendance to 200+ guests and recruiting 20+ partner organizations.
